### **DETAILED ACTION**

1. In view of amendment filed December 27, 2005, new claims 25-28 have been added. Claims 1-28 are pending.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-19, 25-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Lipian et al. (US 6,455,650) for the reasons adequately set forth from paragraph 2 of non-final office action of September 26, 2005.

Applicant's arguments filed December 27, 2005 have been fully considered but they are not persuasive. Applicants argue that Lipian et al. are directed to a single complex while the claimed invention is a mixture of catalysts. The examiner disagrees. Regarding applicants' argument, applicants must recognize that the catalyst mixtures

Art Unit: 1713

comprise a precatalyst and two different cocatalysts, and Lipian et al. (col. 78-79, examples 160-163) clearly disclose a precatalyst comprising two different cocatalysts.

Regarding claim 25, Lipian et al. (col. 21, line 16-20) clearly disclose the precatalyst as claimed.

Regarding claim 26, Lipian et al. (col. 128, line 46) clearly disclose the cocatalyst as claimed.

Regarding claim 27, Lipian et al. (col. 26, line 57-59; col. 130, line 19-22) clearly disclose the cocatalyst as claimed.

Regarding claim 28, Lipian et al. (col. 30, line 62 to col. 32, line 55; particularly col. 30, line 62-67) clearly disclose monomers as claimed.

### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

Art Unit: 1713

1. Determining the scope and contents of the prior art.
  2. Ascertaining the differences between the prior art and the claims at issue.
  3. Resolving the level of ordinary skill in the pertinent art.
  4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
5. Claims 20-24 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Lipian et al. (US 6,455,650) for the reasons adequately set forth from paragraph 5 of non-final office action of September 26, 2005.

Applicant's arguments filed December 27, 2005 have been fully considered but they are not persuasive. Applicants argue that Lipian et al. are directed to a single complex while the claimed invention is a mixture of catalysts. The examiner disagrees. Regarding applicants' argument, applicants must recognize that the catalyst mixtures comprise a precatalyst and two different cocatalysts, and Lipian et al. (col. 78-79, examples 160-163) clearly disclose a precatalyst comprising two different cocatalysts.

### ***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
